TOTO®

ICON GUIDE

TOILET & LAVATORIES

1G — **1.0 GPF**
Using only 1 gallon per flush, 1G toilets provide the most efficient flush in the industry.

DYNAMAX TORNADO FLUSH®
Uses 100% of water to clean and rinse the bowl using a smaller amount of water more efficiently with a 2.5" trapway and quieter flush. Available in 1.0/.9 GPF or 1.28/.8 GPF.

TORNADO FLUSH®
A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

CEFIONTECT®
Ultra-smooth ceramic glaze leaves nowhere for waste to cling.

U — **UNIVERSAL HEIGHT**
Toilet height that allows for a more comfortable height position across a wide range of users.

SD — **SKIRTED DESIGN**
The trapway is concealed by smooth porcelain, making the toilet easier to clean.

LINEARCERAM®
Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

WATER SAVING
Water efficient toilets designed with 1.28 gallons per flush or less.

WASHLET

TOTO WASHLET
An electronic bidet seat featuring adjustable warm water cleansing, heated seat, dryer, deodorizer and much more.

ACTILIGHT®
Special glaze combined with ultraviolet light work together to break down waste in the toilet bowl.

EWATER+®
Mists the bowl with electrolyzed water, a proven disinfectant, keeping the wand and toilet bowl clean to reduce the need for harsh chemicals.

PREMIST
Using the incoming water supply, a Premist sprays the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

AUTO FLUSH
No need to touch buttons or handles and never worry about someone forgetting to flush — it's automatic after each use.

AUTO OPEN / CLOSE LID
Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

DEODORIZER
Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

HEATED SEAT
The moment you approach the toilet, the seat begins rapidly warming to a comfortable temperature.

AIR-IN WONDER WAVE®
Air rich water droplets to produce a more comfortable washing sensation and deliver more thorough cleansing with less water consumption.

WARM AIR DRYER
Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

SHOWER

SAFETY THERMO®
Shape Memory Alloy (SMA) thermostatic valve that prevents a sudden, unwanted increase in water temperature.

AERO-JET+®
Uses air injection technology to increase water volume with an additional pulsating feature for a more invigorating shower experience.

AERO-JET®
Uses air injection technology to increase water volume by adding air into each water droplet, creating voluminous droplets while using less water.

CASCADE FLOW
Curved waterfall-like water stream that evenly warms the entire body.

GYROSTREAM®
Rotating shower nozzle with pulsating water stream that creates a massaging effect.

MINI UNIT
Unified exterior sizes for concealed shower valves creating a balanced bathroom space.

WARM SPA®
The feeling of a warm bath in a shower with water flow that envelopes and warms the body efficiently with no splash.

COMFORT WAVE®
A mix of large droplets and standard spray creates a shower with moderate intensity and just the right amount of stimulation.

ACTIVE WAVE®
Large droplets of water producing a more vigorous, high intensity shower.

FAUCET

COMFORT GLIDE®
Control water flow in comfort. Love its long-lasting ease of use.

SOFT FLOW
From the graceful design comes a touch of water most gentle.

GENERAL FEATURES

ADA
Product complies with Americans with Disabilities Act accessibility guidelines.

DESIGN AWARDS
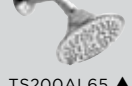

reddot award 2017 best of the best —
The Red Dot: Best of the Best is awarded for groundbreaking design and is the top prize in the Red Dot Award: Product Design. This prize is reserved for the best products in a category.

iF GOLD AWARD 2017 — **IF AWARD**
The iF DESIGN AWARD has long become a symbol for excellent form, for aesthetic quality, and for user-focused, ergonomic and efficient design in all disciplines, by companies around the world.

iF DESIGN AWARD 2018 / iF DESIGN AWARD 2017 — **IF AWARD**
The iF DESIGN AWARD has long become a symbol for excellent form, for aesthetic quality, and for user-focused, ergonomic and efficient design in all disciplines, by companies around the world.

ZN FAUCET

The ZN Faucet features a beautiful design inspired by graceful flowing water. The precisely balanced streams of water from SOFT FLOW touches the skin gently, causing almost no splatter as you wash your hands. The feeling is soft, yet strong and enriching. Sensor-operation eliminates the need for levers or buttons to touch.

NEW

ZN LAVATORY FAUCET
TLP01701U

Polished Chrome   Brushed Nickel

SPLASH-FREE HANDWASHING

SOFT FLOW technology creates little to no splashing, even as the water completely envelops your hands, enveloping them in warmth and comfort.

HANDS-FREE OPERATION

The ZN Faucet has sensors both for opening and closing the spout and for switching between hot and cold water. Simply waving the hand over each sensor operates it.

NEOREST ®

DELIVERING THE PEAK OF TOTO INNOVATION.

NEOREST transforms the contemporary bathroom into a relaxing and refreshing escape.

PREVENT TOILET RESIDUE AND CLEAN AUTOMATICALLY.

TOTO's cleaning technology prevents waste and build up, leaving the bowl automatically clean.

PREMIST

PREMIST sprays the bowl surface aiding in the elimination of waste better than a dry bowl.
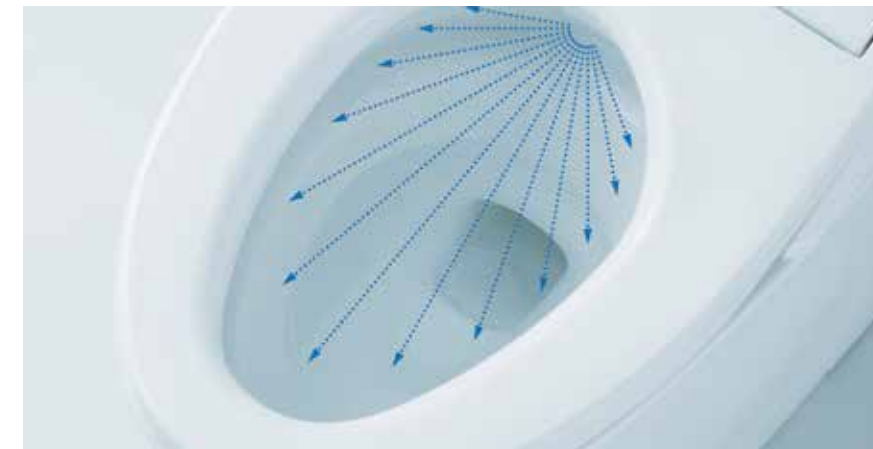

CEFIONTECT®

Ultra-smooth ceramic glaze leaves nowhere for waste to cling.

EWATER+®

Mists the bowl with electrolyzed water.
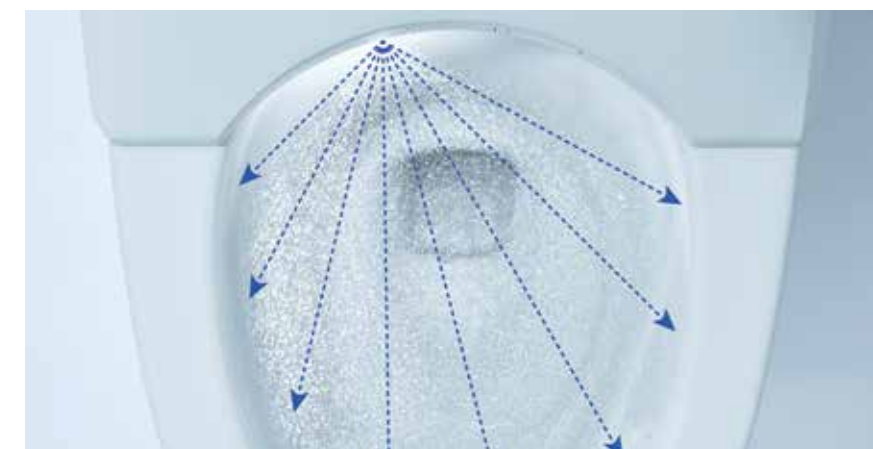

For more information on dimensions please refer to product spec sheet.

MERGING UNIQUE TECHNOLOGY AND DESIGN, MAKES IT EVEN EASIER TO CLEAN.

TORNADO FLUSH®

360° CLEANING POWER REACHES EVERY SPOT USING LESS WATER.
A state-of-the-art, hole-free rim design that offers dual-nozzle bowl cleansing, creating a centrifugal rinsing action that cleans the bowl more efficiently.

RIMLESS

TOTO'S UNIQUE RIMLESS BOWL DESIGN.
The unique rimless design not only leaves no place for waste and germs to hide, it also makes it much easier to clean the toilet.

For more information on dimensions please refer to product spec sheet.

ACTILIGHT®

Photocatalytic glaze, the ultimate cleaning technology,
has the natural power to decompose waste.

Ultraviolet light

Photocatalytic glaze
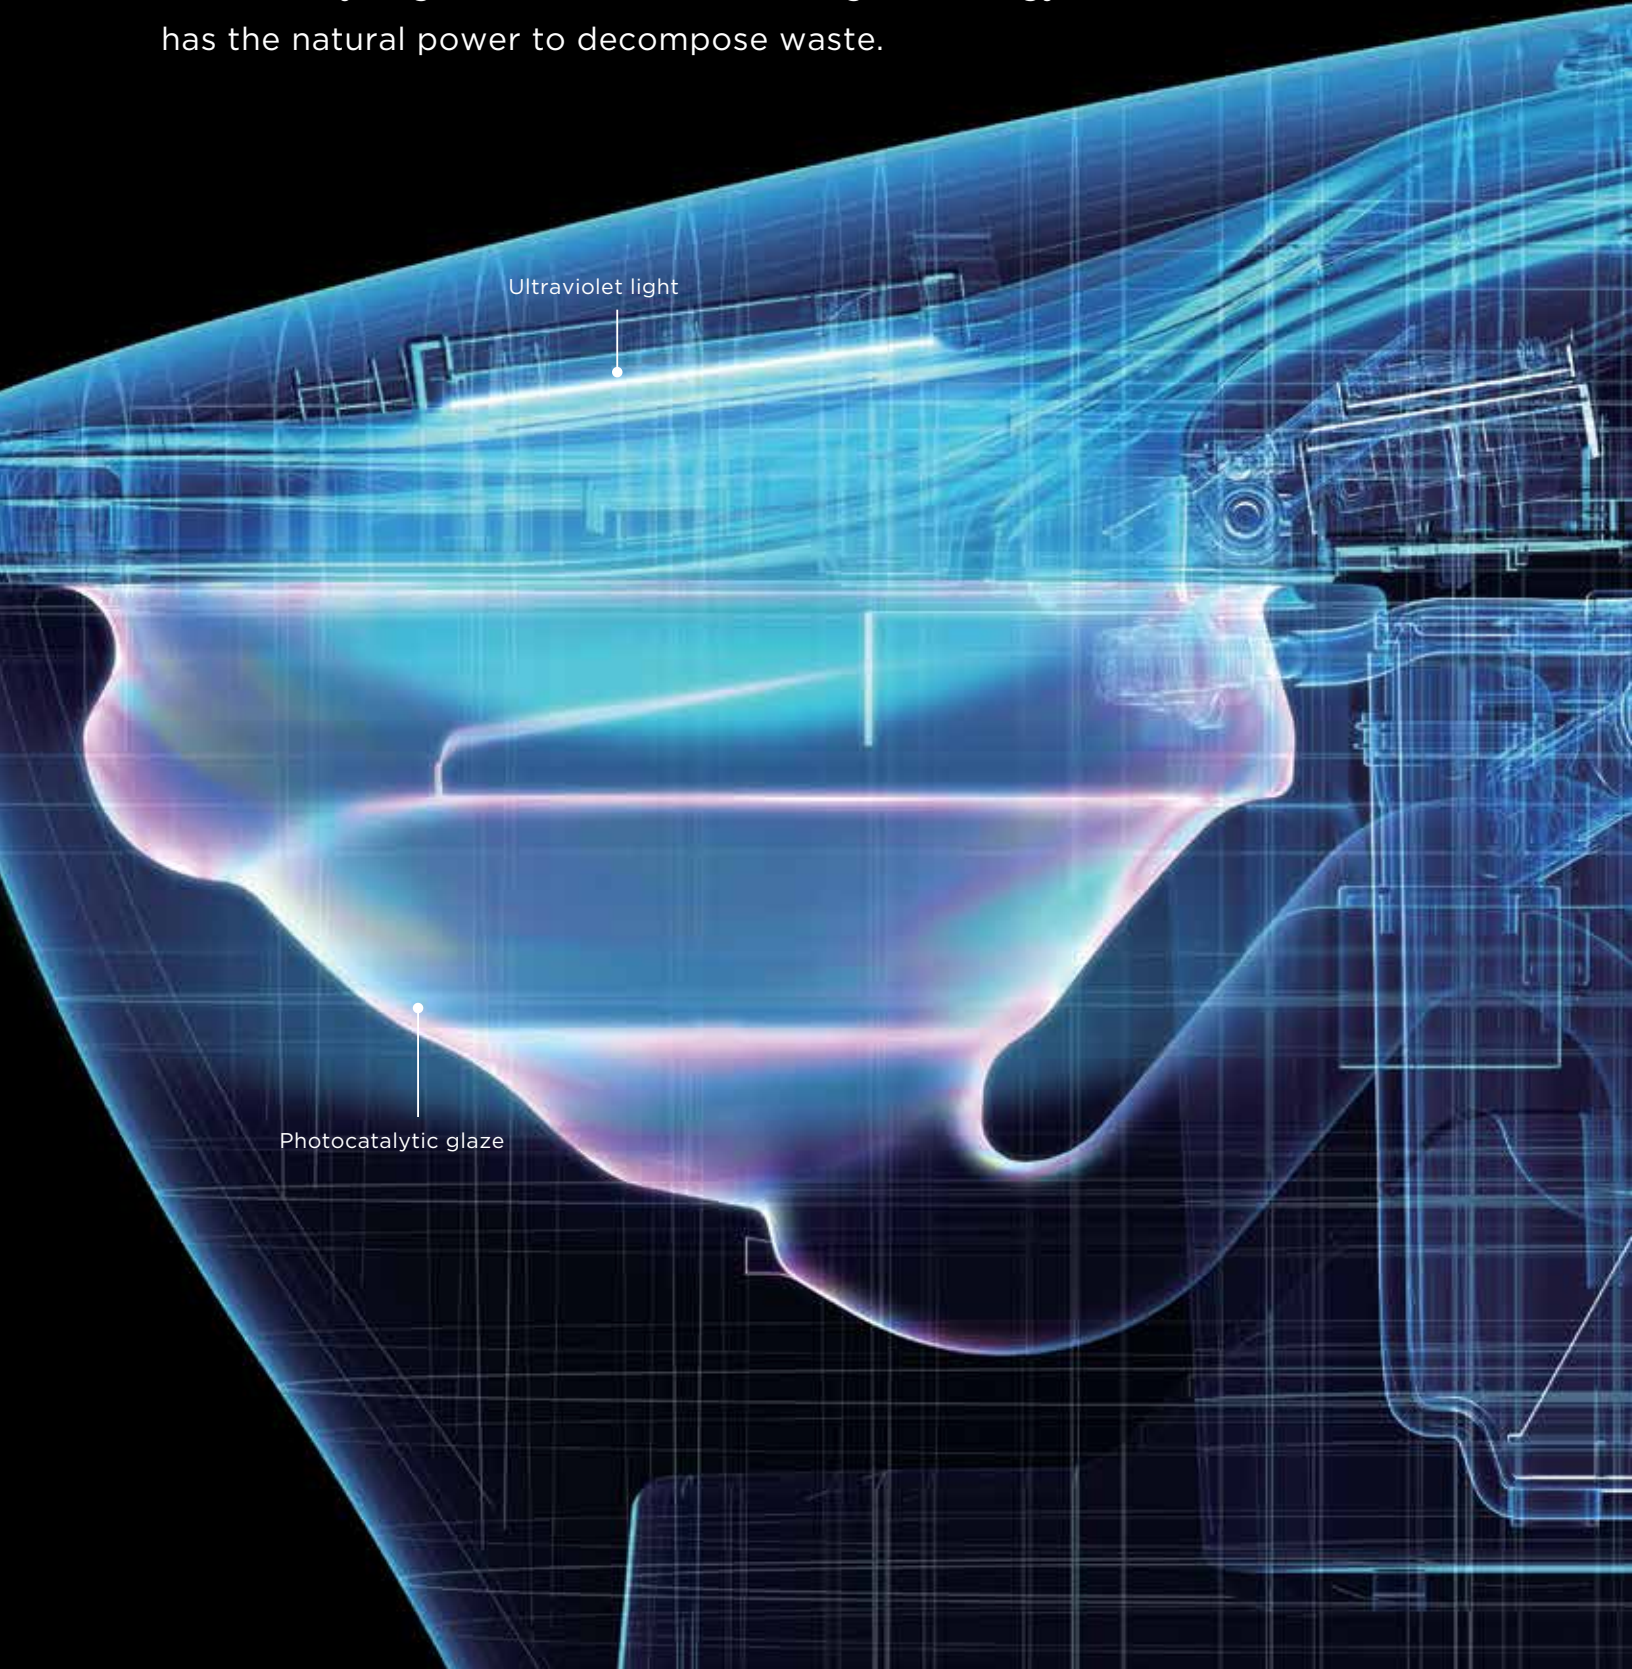

ACTILIGHT® elevates toilet cleaning to an extraordinary new dimension. With ultraviolet light and a titanium dioxide-fired toilet bowl, this extraordnary technology initiates a photocatalytic process that breaks down even microscopic waste particles.

State-of-the-art materials

Titanium dioxide attracts water to the surface of the toilet bowl, setting the stage for photocatalysis. The toilet bowl's photocatalytic glaze also contains zirconium oxide, which provides its extreme durability.

Water veil   Waste

Special glaze   Ceramic

UV light   Activated oxygen
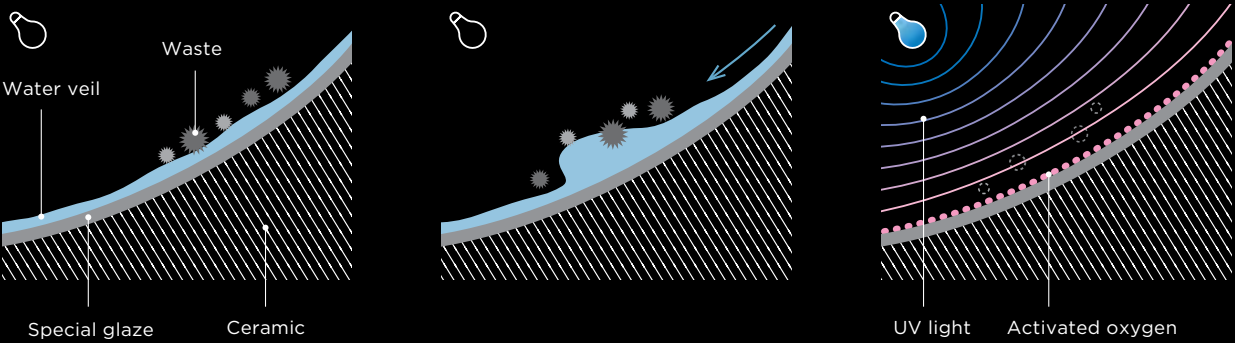

Operates 24 hours a day to maintain hygienic conditions

The photocatalytic process with UV light and titanium dioxide produces activated oxygen from the ambient oxygen and water molecules, which further breaks down organic waste and reduces the food source that microbes feed on.

PREMIST, a fine mist of water, is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

Automatic flushing, then spraying of EWATER+

The UV light continues to react with the titanium dioxide, decomposing waste on the toilet bowl

Before use → During use → After use → During standby

WASHLET

AUTOMATION THAT KEEPS YOU CLEAN AND COMFORTABLE

WASHLET® is an electronic bidet seat that cleanses you with warm water and provides an exceptionally clean feeling. With the touch of a button, the self-cleaning wand extends from under the seat to deliver soothing warm water. The wand is fully adjustable, allowing users to set the precise temperature and spray type.

Instead of traditional toilet paper that can sometimes be rough, WASHLET quickly provides comfortable warm water cleansing, heated seat, premist, dryer, and automated technology.

A once mundane trip to the bathroom can become a spa-like experience with WASHLET.

WASHLET® TECHNOLOGIES
For greater performance and hygiene in the bathroom.

| SELF-CLEANING WAND | PREMIST | DEODORIZER | HEATED SEAT | AUTO OPEN / CLOSE LID | DRYER |
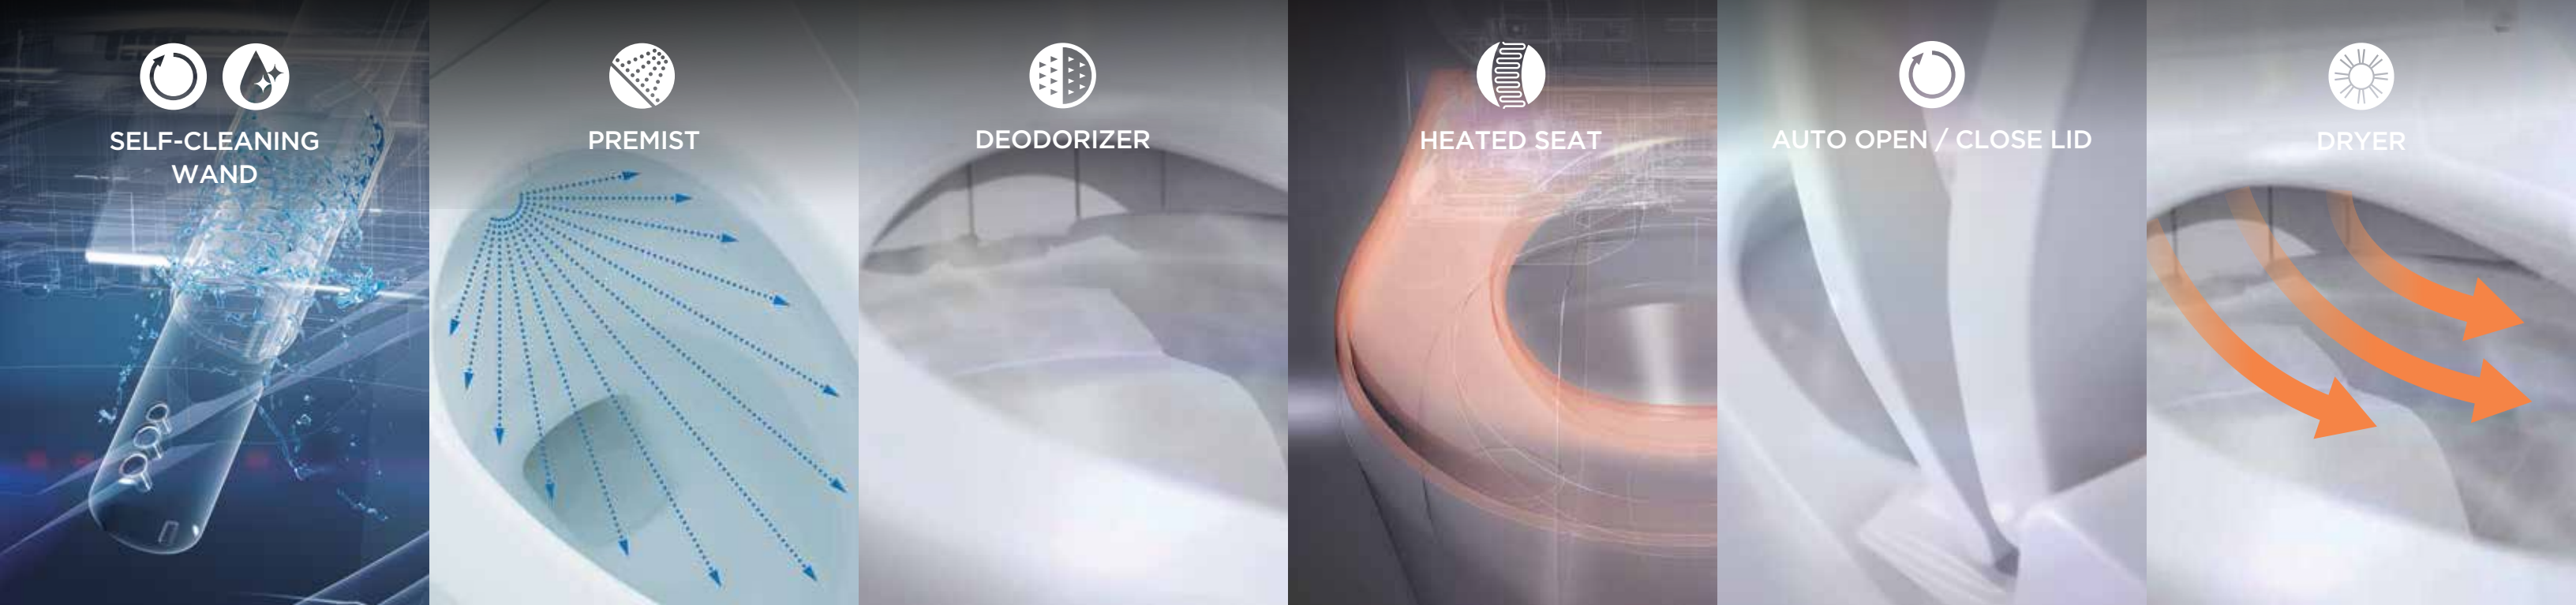

This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically cleans itself to ensure constant hygienic conditions.

Using the incoming water supply, a pre-mist wets the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

Not available on A200 and A100

Highly effective deodorizing automatically takes places inside the toilet bowl both during and immediately after use, leaving no disturbing odors.

Not available on A200 and A100

The toilet seat immediately warms when the toilet is approached, ensuring a warm comfortable seat any time.

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

S550e and S350e only

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

Not available on A200 and A100

For more information on dimensions please refer to product spec sheet.

EWATER+

CLEAN SYNERGY

CEFIONTECT

TORNADO FLUSH

WASHLET®+

TOILET TECHNOLOGIES

CLEAN SYNERGY
YOUR TOILET APPEARS CLEAN EVERY TIME

Synergy is created when the whole is greater than the sum of its parts. TOTO creates clean synergy by combining toilet technologies that work together in harmony to deliver comfort and cleanliness that is unparalleled.

The new series of WASHLET+ features TOTO technologies to create a clean standard for everyday living.

EWATER+®
MISTS THE BOWL WITH ELECTROLYZED WATER TO KEEP THE BOWL CLEAN WITHOUT HARSH CHEMICALS.

EWATER+ cleans the wand and toilet bowl where waste and build up tend to accumulate and create stains that can become permanent.

Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic build up has no place to hide.

What is EWATER+?

Tap water	Electrolysis	EWATER+	Time passes	Returns to ordinary water

Chloride ion

CEFIONTECT®
ULTRA-SMOOTH CERAMIC GLAZE LEAVES NOWHERE FOR WASTE TO CLING.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

Eliminating the microscopic gaps where waste hides

NON CEFIONTECT   Washing water

CEFIONTECT   Washing water

Enlarged sectional image of toilet surface

Conventional ceramic may appear perfectly smooth to the eyes, but has gaps where waste and other build up hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.
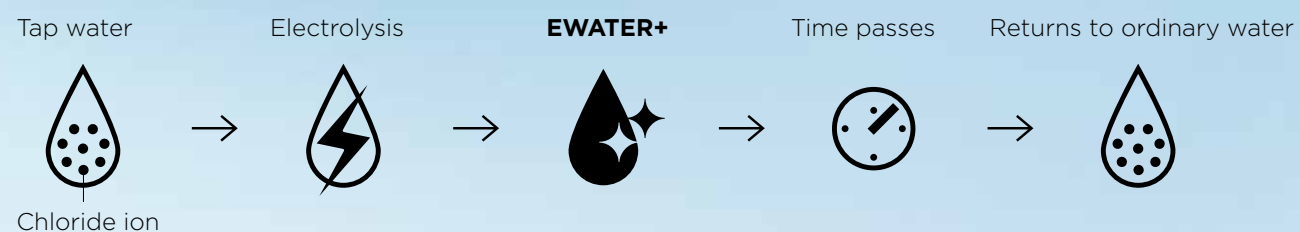

DYNAMAX™
TORNADO FLUSH®
USES 100% OF WATER
TO CLEAN AND RINSE
BOWL.

DYNAMAX combines powerful
bowl cleaning and waste
evacuation using water that is 100%
projected from the rim creating
360° cleaning power.

Using only 1.0/0.8 or 1.28/0.8
gallons per flush, coupled with
a 25% larger trapway diameter,
this high-efficiency system uses
20% less water with improved
performance while also creating
a quieter flush. With a modern
rimless design, it performs more
consistently and is easy to clean.
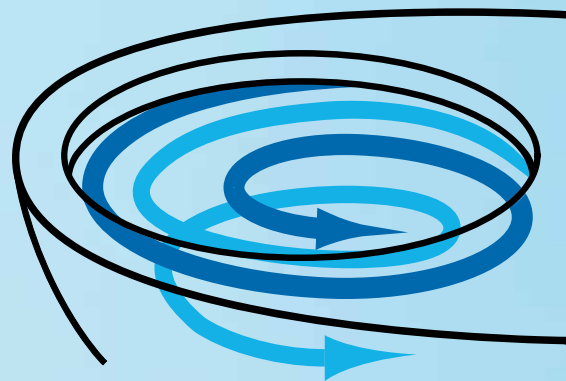

TORNADO FLUSH®
360° CLEANING POWER
REACHES EVERY SPOT
USING LESS WATER.

TORNADO FLUSH not only cleans more
effectively, it does so quietly using less
water. Powerful streams of water merge
and swirl 360 degrees, washing every
spot inside the RIMLESS toilet bowl.

THOROUGHLY WASHES
WHERE WASTE ACCUMULATES
MOST EASILY

TORNADO FLUSH
powerfully ejects a stream
of water from a spout
near the rear of the toilet
bowl, which is where
waste accumulates most
easily, thoroughly
cleansing this area and
then washing the entire
bowl.

TOTO'S UNIQUE RIMLESS DESIGN

The unique RIMLESS design not only leaves no
place for waste and germs to hide. It also makes for
a much easier to clean toilet.

WASHLET®+

Series of WASHLET-and-toilet sets.
New standard of comfort and cleanliness for daily life.

Designed for every home, WASHLET+ is the smart way to introduce the life-changing comfort and cleanliness of TOTO technology to your life. Each toilet-and-seat set is harmoniously designed with no protruding pipes or cords. Various sets are available. Choose your WASHLET+ with the features that best match your home and sense of style.

THE NEW STANDARD OF COMFORT AND CLEANLINESS FOR DAILY LIFE.

Designed for every home, WASHLET®+ is the smart way to introduce the comfort and cleanliness of TOTO technology into your life. Each unit is harmoniously designed with a concealed connection — no visible hoses or cords — making the bathroom a most inviting space. A wide range of sets are available for you to discover.

HOW IT WORKS

WASHLET+ offers a concealed supply connection for seamless installation.

TOILET TECHNOLOGIES

1G

Our 1G toilets offer substantial water savings without wavering on our renowned performance. Using our powerful — yet surprisingly quiet — gravity-fed, hole-free rim TORNADO FLUSH® technology, 1G fully evacuates the bowl with an ultra-efficient one gallon of water. Combined with the extraordinarily smooth CEFIONTECT® glaze that prevents particulates from adhering to porous, ceramic surfaces every inch of your bowl stays cleaner, longer.

SHOWERHEADS AND HANDSHOWERS

MODERN AERO®
RAIN SHOWER; TS111B12, PAGE 127

A BRAND NEW SHOWER SYSTEM. WATER LIKE A WARM CLOAK.

The feeling of a warm bath, in a shower. This is the power of the WARM SPA. A single pillar of warm water running quietly from the showerhead. When water hits the body, it follows the curves and envelops it without a splash. A completely new shower experience, warming your body efficiently.

Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower.

LET NO HEAT ESCAPE. BE WARMER.

Smooth water release means less heat loss. The water cloaks your body, quickly warming it to the core. This feature is now available not only in conventional overhead showers, but handshowers too.
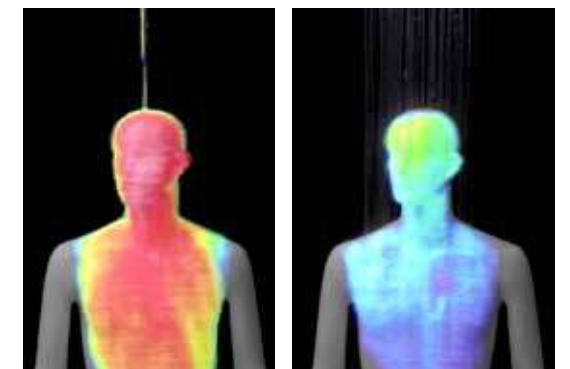

WARM SPA

CONVENTIONAL SHOWER

WARM SPA™

A NEWLY DEVELOPED NOZZLE FOR GREATER COMFORT.

We newly developed our original shower nozzles with bigger droplets than conventional showers. Large drops of water swing and flow with power, delivering a comfortably stimulating shower while saving water. Feel refreshed with the moderate-intensity of COMFORT WAVE, and invigorated with the high-intensity flow of ACTIVE WAVE.
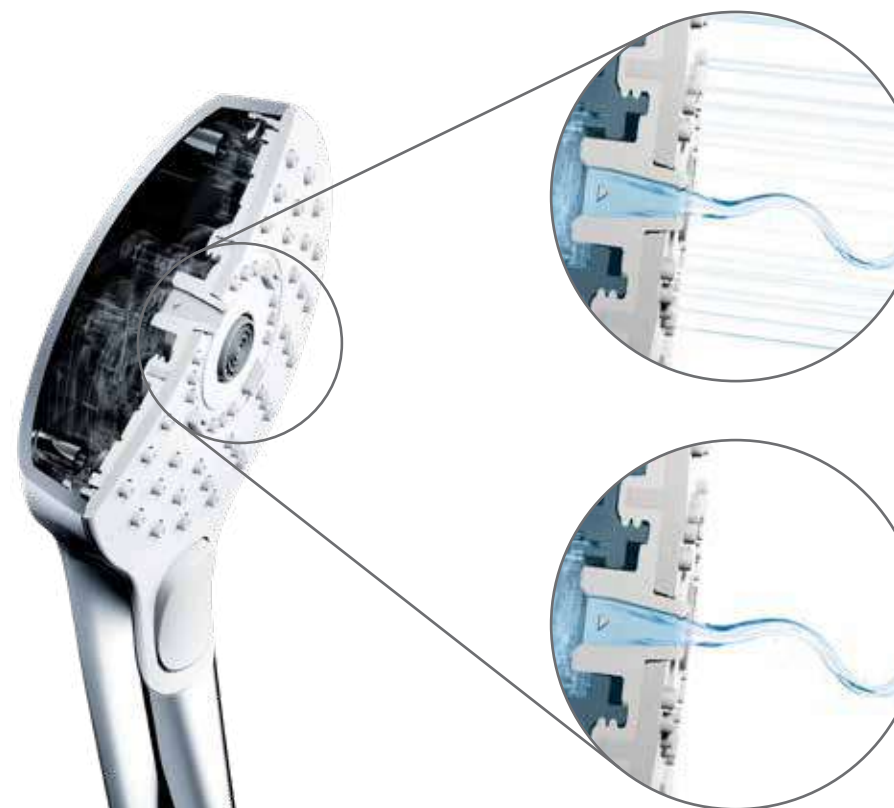

COMFORT WAVE
Uses a new nozzle to add larger drops of water to the shower for a comfortable experience with just the right amount of stimulation.

ACTIVE WAVE
Uses the newly developed shower nozzle capable of large drops of water. It provides a more vigorous, more uplifting shower than the COMFORT WAVE.

COMFORT WAVE™
ACTIVE WAVE™

COMFORT WAVE

ACTIVE WAVE

A PERFECT SHOWERING EXPERIENCE WITH JUST ONE TOUCH.

For the handshower, we installed a switch right at your fingertip allowing you to easily change between WARM SPA™/COMFORT WAVE™/ACTIVE WAVE™. The switch for the overhead shower is located inside the showerhead to change between WARM SPA and COMFORT WAVE.

A REVITALIZING EXPERIENCE IN EVERY SINGLE DROP.

Aero showers combine TOTO's premium water-saving technologies with luxurious comfort features, creating the feeling of a full, rich shower while using less water than a standard showerhead or handshower.

AERO-JET® AND AERO-JET+®

AERO-JET uses air injection technology to increase water volume by adding air into each water droplet, resulting in a full, rich shower. AERO-JET+ technology adds a pulsating feature to the stream, for an even more invigorating experience.

CASCADE FLOW

The nozzle flow is a curved waterfall-like water stream that evenly warms the entire body.

GYROSTREAM

The handshower features a rotating shower nozzle with pulsating water stream that creates a massaging effect.

FAUCETS AND TRIMS

MINI UNIT™

3.8"

weight
1.5 lbs

4.4"

SAFETY THERMO™
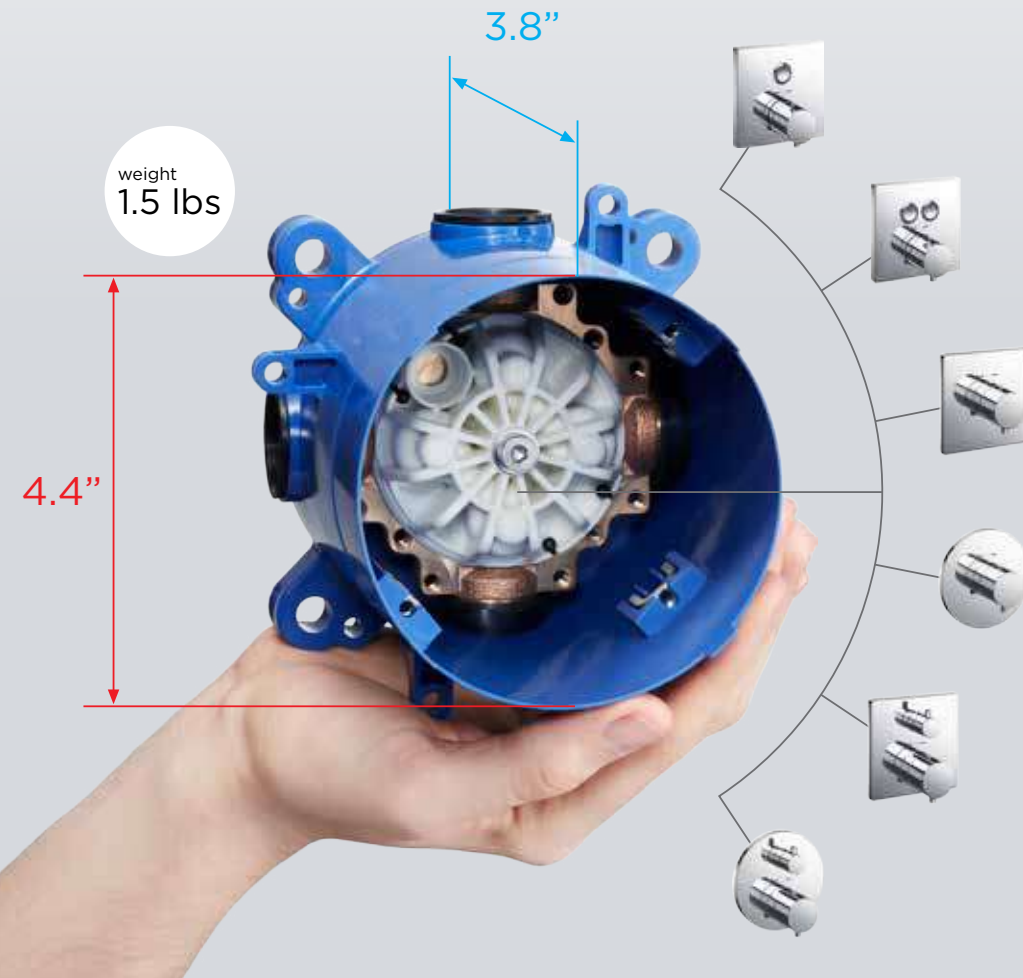

THE EXACT EXTERIOR YOU WANT.

TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a thermostat type or touch button type, and also make choices based on design features such as circle or square fixtures.
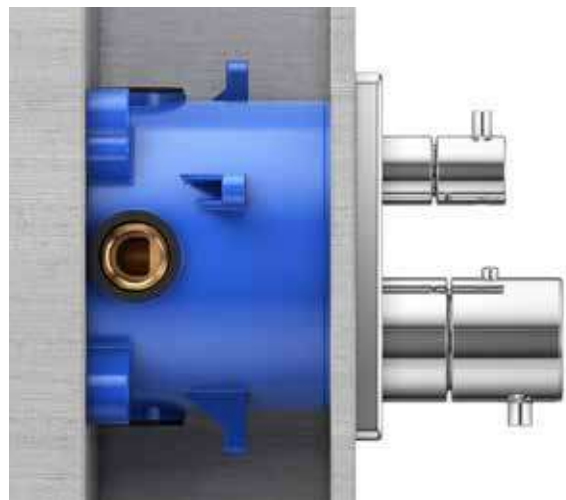

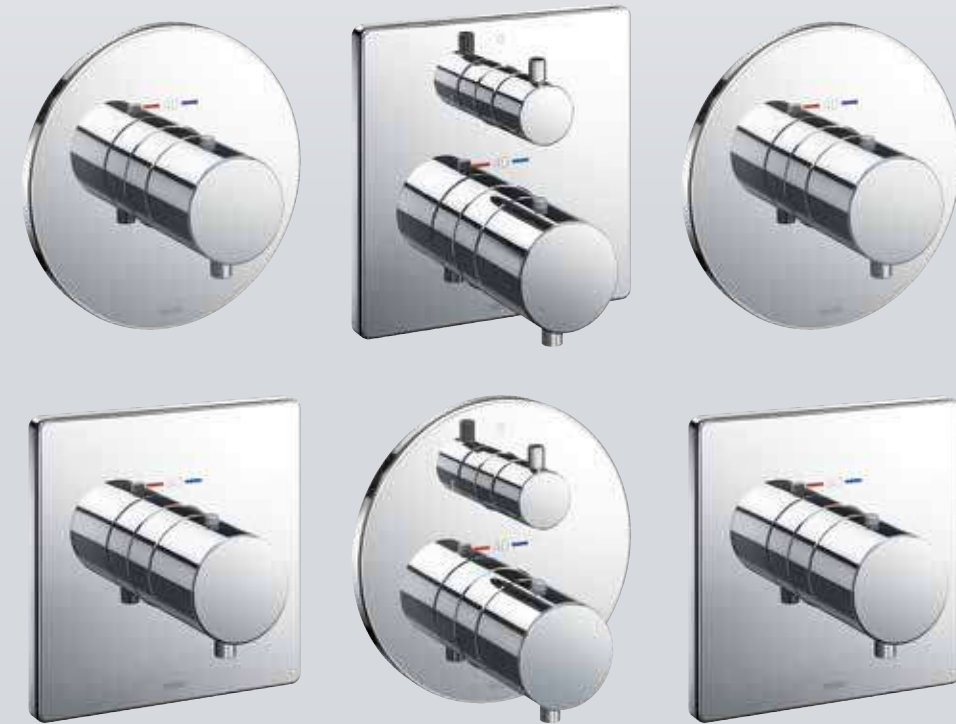

TEMPERATURE SWINGS, SOLVED IN AN INSTANT.

Let's say a family member uses water while you are in the shower. This can often create a sudden, unwanted increase in the shower water temperature. SAFETY THERMO prevents this from happening. A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

TOTO SHOWER CONFIGURATIONS

Besides water flow and design, you can choose the number of outlets as well. From something simple to highly decorated, options are available based on your lifestyle and style preference.

1 OUTLET

A shower space designed with 1 shower outlet (choose between a handshower, overhead shower, or bath spout). It's the simplest way to enjoy a comfortable shower experience.

2 OUTLETS

A shower space designed with 2 shower outlets (handshower + overhead shower, for example). Depending on how you are feeling that day, you can change up between handshower and overhead shower.
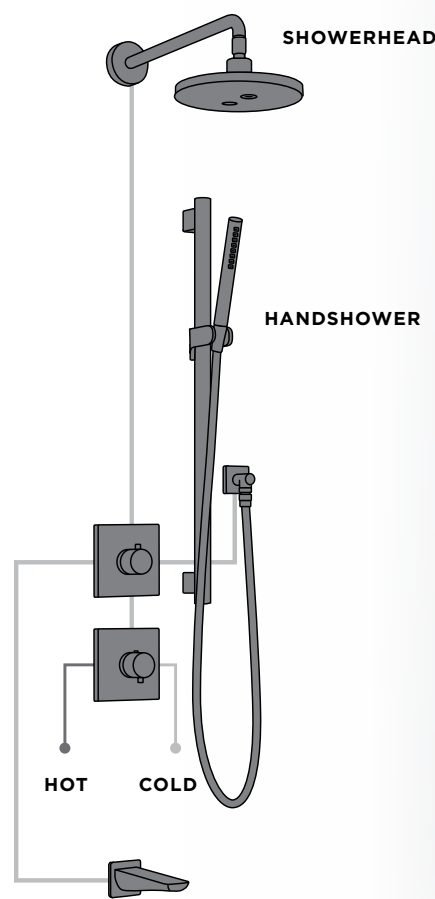

3 OUTLETS

A shower space designed with 3 shower outlets (handshower, overhead shower, bath spout). The system that will give you the most varied shower experience.

COMFORT GLIDE™

EASE OF USE, BASED IN SENSATION.

For TOTO, comfort does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve based on the user's touch. Designed from the ground up to provide fundamental comfort in operation.
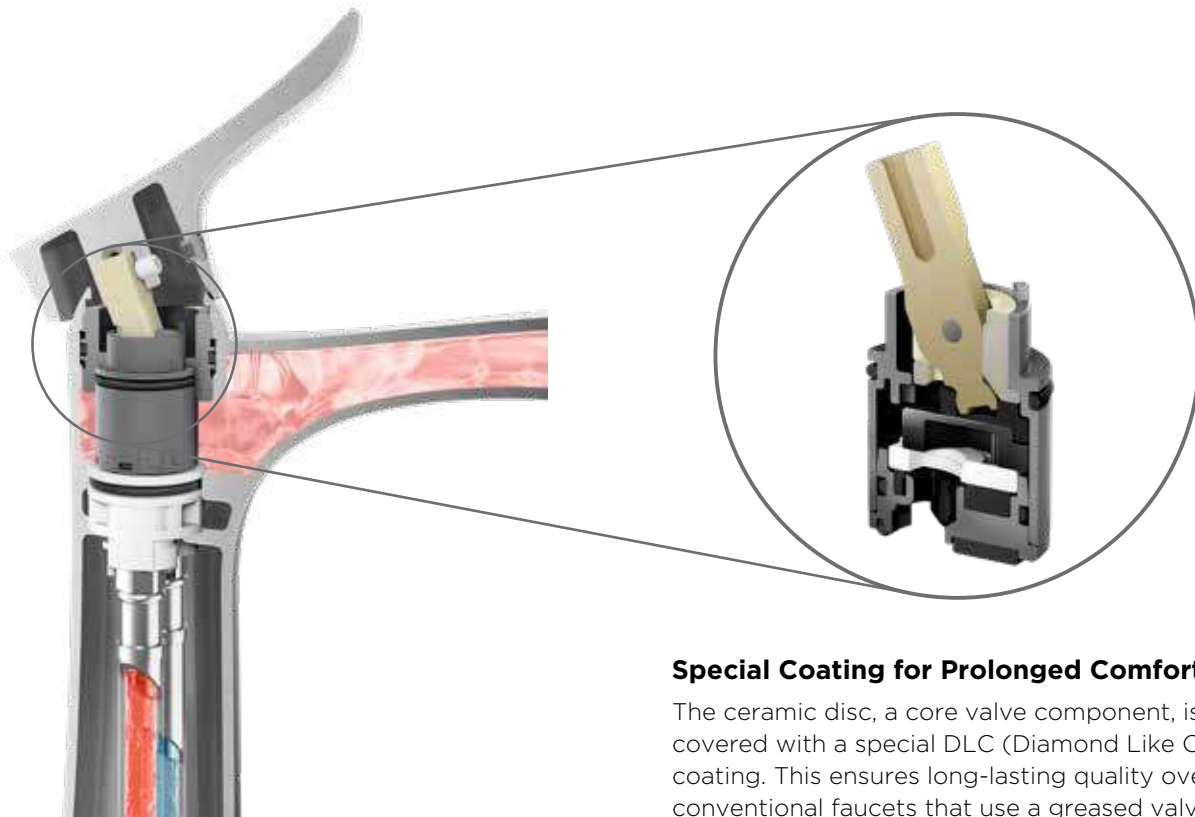

Special Coating for Prolonged Comfort

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

EASY TO USE FOR A LIFETIME OF COMFORT.

The graph shows the number of years in use and its operating force. It is evident that comfort lasts for a long time with models featuring COMFORT GLIDE.

TOTO
EVERYWHERE

TOTO CAN TAKE CARE OF YOU EVERYWHERE.

TOTO products can create beautiful, refreshing bathroom experiences in any situation. We design everything from urinals to hand dryers, so even a football stadium or an airport restroom can be a peaceful, inspiring escape.

We're known for consistent high-performance design and a beautiful, global aesthetic in all our products, so wherever you find TOTO you can experience the same reliability, value and style.

SENSOR FAUCETS   TOILETS   URINALS   FLUSH VALVES   LAVATORIES   HAND DRYERS

In today's fast-paced world, the need for superior performance and reliability means everything. And when it comes to busy commercial buildings, TOTO products are the only choice. We design world-class, eco-friendly plumbing products that help you save water and money without sacrificing an ounce of performance.

CERTIFICATION & COMPLIANCE

TOTO offers a full range of bathroom products that can help professionals in the commercial industry earn LEED points toward certification.

LEED is an internationally recognized green building certification system that provides third-party verification for a building or community. To get maximum LEED points, a new or existing building must reach specified water-usage reduction percentages. The more usage reductions, the more LEED points are earned.

THE AMERICANS WITH DISABILITIES ACT (ADA)

The Americans with Disabilities Act (ADA) was enacted in 1990 to establish design codes to serve people of all ages and abilities. A core principle behind TOTO Total Design, ADA standards consider the needs of everyone without additional adaptation or specialization, optimizing the bathroom experience for all generations in the family home.

By innovating ergonomics and accessibility, and combining them with our global design aesthetic, we give everyone everything that's great about TOTO.

ENVIRONMENTAL RESPONSIBILITY

TOTO plays a significant role in leading the sustainability charge in our industry. In fact, our active role in leading policy and certification organizations demonstrates how we go beyond products or practices to help ensure environmental responsibility across all company activities.

▸ TOTO is the only plumbing manufacturer to receive the EPA's Water Efficiency Leader Award
▸ TOTO was the first plumbing products manufacturer to have employees become substainability experts by gaining LEED Accredited Professional status
▸ TOTO was the first major plumbing products manufacturer to join the United States Green Building Council (USGBC)
▸ TOTO was the first plumbing products manufacturer to develop third-party verified LCA Transparency Reports for bath products.

EPA WaterSense Partner   United States Green Building Council   Water Efficiency Leader Award   Environmental Protection Agency   LEED AP   Argon Award   Meets California Water Savings Regulations

Innovation & Technology Highlights

THE TOTO ADVANTAGE

- ‣ Thorough and extensive testing to ensure balanced flushing
- ‣ HETs use 1.28 GPF
- ‣ HEUs use as little as 0.125 GPF
- ‣ TOTO toilet and urinal fixtures are designed for efficient operation, ensuring the highest performance with the lowest consumption levels.

EFVs use the flow of the water to power the entire system...

and when paired with a TOTO high-efficiency commercial toilet or urinal...

equals a balanced system that cannot be matched by combining different toilets and flush valves.

Reduced Maintenance
Improved Reliability
Superior Performance
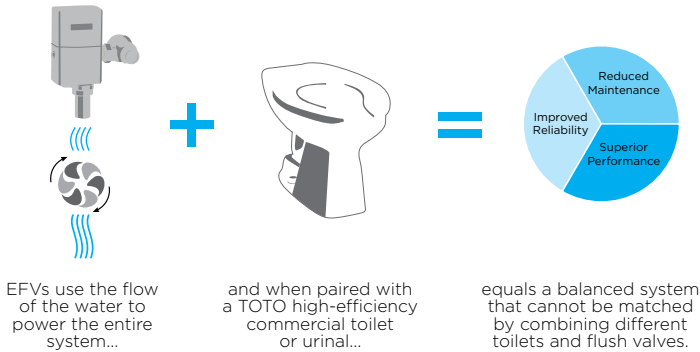

CEFIONTECT®

- ‣ Extraordinarily smooth glaze prevents particulates from adhering to ceramic surfaces
- ‣ The ion-barrier in CEFIONTECT keeps surfaces cleaner, longer
- ‣ Less cleaning means less water use and fewer chemicals in the environment

No CEFIONTECT   With CEFIONTECT
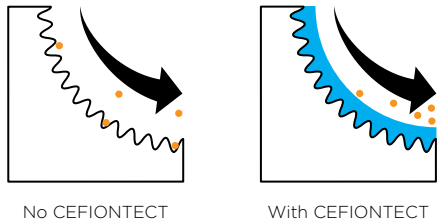

ECOPOWER® FLUSH VALVES

- ‣ Hydroelectric turbine uses water to create power
- ‣ ECOPOWER flush valves provide maximum performance in high-traffic commercial spaces
- ‣ Self-powering eliminates costs of installing electrical supplies and wiring
- ‣ No routine battery replacement means less maintenance costs

THE POWER OF
RECLAIMED WATER
Innovation & Technology Highlights

COMMITTED TO SAVING WATER
DROP BY DROP.

Water conservation extends far beyond the amount we use. Reclaimed water aims to reduce the amount of potable water used in our toilet systems. Recycling water already used for toilets conserves our precious, finite sources of fresh water.

COMMERCIAL
ECOPOWER®
FAUCETS

Innovation & Technology Highlights

ECOPOWER sensor faucets harness the energy of running water to power themselves. It's a simple solution that saves water and energy. That's the TOTO theory of sustainability.

The water-powered turbine in the ECOPOWER faucet creates an electrical current that is stored in rechargeable cells to power the Smart Sensor System. ECOPOWER replenishes its charge with every use and has no minimum daily usage requirement. This translates into reduced electricity use, lower maintenance costs and better ecology with hands-free, automatic-shut-off functionality.

INSTANT RESPONSE
SENSOR

FOR SENSOR

TURBINE

Powered by water, the turbine creates an electrical current that is transmitted through the system to the sensor.

SOLENOID
VALVE

TOUCH **FREE**

INSTANT RESPONSE
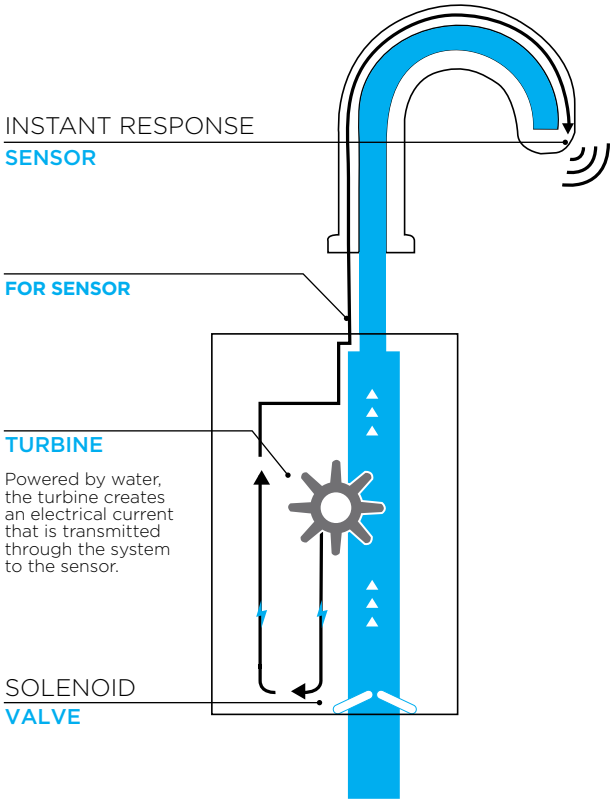

ECOPOWER
ADVANTAGE

‣ Sustainably engineered to require no external electricity source

‣ Hydropower system needs no routine battery replacement which lowers maintenance costs

‣ Strategically placed sensor ensures instantaneous water response, minimizing water wastage

‣ Hands-free operation reduces the chance of spreading contaminants

TOTO COMMERCIAL
PERFORMANCE

A WIN-WIN. Unlike other sensor faucets, ECOPOWER faucets use hydropower to operate the sensor. The flow of water, which meets the most rigorous water saving standards, spins the high-efficiency turbine to both create and store power for operation. TOTO's proprietary sensor technology has been perfected over the past 15 years.

# DISPENSERS
Innovation Highlights

THE TOTO ADVANTAGE

TOTO's soap dispensers offer automatic, touchless operation for a more hygienic and comfortable experience. Designed for high-traffic commercial spaces, our soap dispensers are available in industry-standard polished chrome, and for more decorative installations, brushed and polished nickel finishes.

▸ Made from durable material for heavy use in commercial applications
▸ Biodegradable, Green Seal™ certified soap available
▸ Foaming soap for efficient cleansing*
▸ Auto-purge cycle to prevent soap from clogging the spout
▸ Micro-sensor under the spout for accurate hand detection*
▸ Low soap indicator
▸ Low battery indicator*
▸ Easy-to-refill soap reservoir

*Function available on specific models.

TOTO STANDARD SOAP DISPENSER

TLK03001G - Automatic infrared sensor activated, soap dispenser with 1.06 gallon soap tank and an optional 5.8 gallon sub tank. Automatic sensor adjustment on installation.

Optional five-gallon reservoir available

Single soap reservoir Feeds three spouts

COMMERCIAL
CLEAN DRY®
HAND DRYERS

Innovation & Technology Highlights

TOTO's Clean Dry hand dryers offer high-speed air for an effective, economical solution. Infrared sensor-operated, Clean Dry offers innovative air wicking technology that dries the user's hands in under 12 seconds.
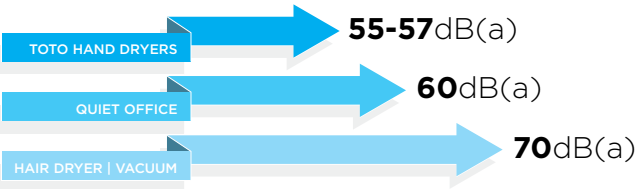

WASTE REDUCTION

LOW **NOISE**

TOTO COMMERCIAL
PERFORMANCE

Clean Dry hand dryers reduce energy use by 25 percent over traditional electronic hand dryers that sometimes fail to dry hands completely. Further, Clean Dry dryers are extremely quiet during operation with a low decibel rating between 55 and 62 dB
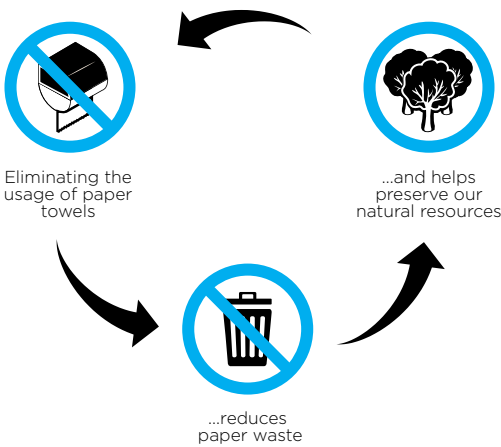

TOTO HAND DRYER
BENEFITS

▸ Unobtrusive designs that blend into any bathroom décor

▸ Environmentally friendly – no paper waste

▸ Eliminates the cost of providing paper towels, including the man-power needed to restock paper and discard trash

▸ Double-sided fan simultaneously dries hands from both sides, greatly reducing drying time*

▸ Washable trays to eliminate water splashing and prevent slip and fall accidents

▸ Vandal resistant designs

DECIBEL RATING

TOTO HAND DRYERS — **55-57**dB(a)

QUIET OFFICE — **60**dB(a)

HAIR DRYER | VACUUM — **70**dB(a)

TOTO HAND DRYERS HELP
THE ENVIRONMENT

Eliminating the usage of paper towels

...and helps preserve our natural resources

...reduces paper waste
