

Haefen "Richard" Donaldson
President

20 years ago, my father had a vision to create a business not only for his family, but for his community, and other families. His tenacity and passion built the foundation, and propelled me into building something bigger and better with each passing year. As we close out one of the hardest years, we are also entering into one of the most important: our 20th year Anniversary.

As we enter into 2021, I would like to thank you for your loyalty and support.

The challenges put upon all of us in 2020, also helped bring unity and confirmation that we can make it through difficult times, when we partner with the right people: Customers that trust us; Vendors that support us, and team members that carry us through it all.

Communication, consistency and faith remind us that we are headed in the right direction, and we could not have done it without your support.

We remain positive and excited about what our 20th year will bring. We are honored to share it with you. Stay safe, stay healthy and stay tuned!

Sincerely,

Haefen Donaldson
