1 GALLON TECHNOLOGY (1.0 GPF)

TOTO's 1G toilets offer substantial water savings without wavering on our renowned performance. Using our powerful — yet surprisingly quiet — gravity-fed Tornado Flush technology, 1G fully evacuates the bowl with an ultra-efficient one gallon of water.

Regular Flush

VS.

WASHLET brings a new, refreshing lifestyle to the Caribbean. Cleansing with warm water after using the toilet provides an exceptionally clean feeling. The self-cleaning wand is fully adjustable, allowing users to set the precise temperature and spray type for comfortable intimate cleansing.

WASHLET S350e

CLEANSINGFUNCTIONS

REAR

The rear spray is designed to clean the rear intimate area. It features pleasant, yet strong water pressure to target this specific area.

REAR SOFT

It has a larger radius to cover more space. Low water pressure makes for a soft, comfortable spray.

FRONT

The front wash consists of large, soft drops for comfortable intimate cleansing – for a clean, fresh feeling.

WIDE FRONT

It has a larger radius to cover more space. Low water pressure makes for a soft, comfortable spray.

*On WASHLET S350e & S300e only

WASHLET

COMFORTFUNCTIONS

DEODORIZER

The deodorizer effectively cleans the air around the toilet using powerful filters. Air is drawn in, passing through an ionized carbon filter to eliminate unpleasant odors.

HEATED SEAT

The specially designed, contoured seat is heated to provide maximum comfort. An integrated sensor maintains the desired setting between 82°F and 97°F.

SOFTCLOSE LID

The SoftClose lid closes gently to eliminate seat slamming. The S350e & G500 model lids are activated by sensors for automatic opening and closing.

DRYER

Enjoy the ease and comfort of drying with the temperature-adjustable warm-air dryer.

HYGIENEFUNCTIONS

SELF-CLEANING WAND

The self-cleaning function cleans the entire wand before and after each use.

PREMIST

Using the incoming water supply, a pre-mist wets the toilet bowl surface aiding in the elimination of waste approximately 80 percent better than a dry bowl.

EWATER+

Electrolyzed water is a proven disinfectant used in food preparation and cleaning. After each use, TOTO's eWater+ mists the bowl with electrolyzed water, reducing the need for harsh cleaning chemicals.

*On WASHLET S350e & S300e only

SIMPLE SLEEK & SUSTAINABLE

EcoPower Flush Valves use hydroelectricity to operate the system, creating a sustainable loop. The self-powering feature eliminates costs associated with installing electrical supplies and wiring, and lowers maintenance costs as no routine battery replacement is needed.

FLUSH VALVE COMPONENTS

The water-powered turbine in the EcoPower flush valve charges the power supply during usage and provides maximum performance in even the most demanding, high-traffic commercial spaces.

Smart sensor with self-adjusting detection range

6-second detection time to prevent ghost flushing.

No minimum daily usage requirement.

Self-cleaning piston valve* with 360° filter screen.

Neutral rough-in allows for both left and right installation.

* Excludes 0.125 GPF urinal flush valves.

 **Royal Flush**
Daco Worldwide Campaign.

NEOREST WITH ACTILIGHT

The NEOREST 750H is truly a revolutionary innovation at the peak of luxury. The sensor-activated lid opens as you approach the toilet and closes shortly after you leave. The seat provides a radiant heat that you can adjust at any time. The warm water spray with variable temperature and volume settings, also allows you to choose between oscillating or pulsating spray options for a comforting, intimate cleansing experience.
